

ZYTO™

BALANCE

Empower clients with individualized data

- Recommend products with confidence
- Easily understand and explain reports
- Help clients achieve wellness goals
 - Expand product sales
 - Create new revenue streams
- Increase client base and retention

Key features of the Balance software

Inventory - Select only items you want to scan

Quick Scanning - Scan entire product line in minutes

Biomarkers - Measure responses to lifestyle & body items

15 Reports - Get key insights and educate clients

Vectors - Correlate body parts, systems, & emotions

ZYTO Remote - Scan clients anywhere in the world

Foods Scan - Scan 300+ food items

ZYTO BALANCE

Utilizing advanced biocommunication technology, the Balance software quickly and accurately identifies supplements and essential oils in your product line for which the body shows coherence, or what we call a biological preference.

Additionally, the Balance scans more than 190+ biomarkers including those in the 4 core body systems and associated lifestyle areas that are crucial for maintaining overall wellness. Services that you offer or refer clients out to can also be scanned.

All the product, service, biomarker, and lifestyle Virtual Item responses gathered from the Balance biosurvey are organized in detailed reports with graphs that help you easily identify patterns, trends, and relationships.

These and other features of the Balance software make it well worth the small investment for the health and wellness of your clients and the expansion of your practice or business.

Product Company Libraries

The ZYTO Balance offers more than 30 product company libraries to choose from. Balance customers can select one dedicated product company for each license. With inventory management, you can scan your entire library or choose to scan only the items you have in stock. And with continuous updates, you'll never have to worry about keeping your product library updated as product lines change.

The ZYTO Hand Cradle has been cleared by the FDA for the measurement of galvanic skin response. ZYTO software has not undergone FDA review for effectiveness. ZYTO technologies are not intended to be used in the diagnosis, cure, treatment, mitigation, or prevention of any disease or medical condition, but only provide general wellness information. The diagnosis and treatment of medical conditions should only be undertaken by qualified medical professionals. ZYTO products have not been the subject of controlled clinical trials to establish their effectiveness and their use is not a generally accepted medical practice by the traditional medical establishment. If you have any questions regarding ZYTO technology or our products please contact us at info@zyto.com.

Customer Testimonials

"The Balance has dramatically increased the amount of new clients from the referrals of people that have been scanned."

– Corrie Ratzat

"Clients love the reports, I love the extra information which is cheap and non-invasive, and the additional results and revenue are great."

– Naota Hashimoto, DC, BS

"I have 2 in my shop. One for the herb shop and the other for the wellness center... It works!"

– Nicole Irving
