**Reports** - Choose from dozens of customizable reports

**Vectors** - Visually correlate body parts, systems, and emotions

**ZYTO Remote** - Scan clients anywhere in the world

# ZYTO SELECT

The ZYTO Select software offers an expanded range of automated scans along with access to our complete database of available nutritional supplement libraries.

With the Select, you can choose from many different kinds of scans, including:

- Basic Scans — perfect for first-time or regular return visits to support wellness.
- Advanced Scans — a great choice when you need to scan for a wide range of Virtual Items.
- Foods for Wellness Scan — a specialized scan that can provide insight into your client's dietary choices.

Additionally, the Select is packed with various customization features, such as the ability to create categories, apply your knowledge and approach during biosurvey breakpoints, and edit reports.

Primarily designed for automation, the Select still offers plenty of versatility—allowing you to quickly personalize each and every session.

## Add-on Scans

In addition to the Basic, Advanced, and Foods scans, add-on scans are available to purchase with the ZYTO Select, including:

- Lifestyle Biosurvey — Scan the 4 core body systems that greatly influence wellness along with additional Virtual Items representing diet, hydration, sleep, and more.
- Digestion Biosurvey — Scan for a wide range of Virtual Items related to gut health including digestion anatomy, food, parasites, and neurotransmitters.

## Customer Testimonials

“ZYTO biotechnology creates a better informed patient, and affords greater compliance, and gives me better clinical results and patient satisfaction. This tool leads to greater patient retention, and the referral of family, friends, and neighbors while adding yet another revenue center to my practice through scans, and added dispensary.”

—Dr. L. N. Meltz

“Patients are extremely excited with their results and anxious to tell their friends and family.”

— Dr. J. Schleusner
